To whom it may concern

It is with great pleasure that I recommend Riaan Wilmans for Graphic Design. I have worked with Riaan since 2014 when the HSRC Press first commissioned him as a freelance book cover designer. Since then we have worked together on several projects and he has in fact become our 'go to' designer for some of the more challenging and critical book covers on our list.

The following are some of the qualities that have contributed to the high esteem in which we hold Riaan:

- Ensuring a feel for the content
- Complete creative immersion in the initial concept development
- A rich menu of concept offers
- Attention to detail
- Adherence to the project schedule
- A willingness to change tack when this becomes necessary
- Endless patience with minute changes requested by a variety of role players
- Speaks out when requested changes are likely to detract from the cover

Based on our experience together, I can confidently recommend Riaan for any design work.
